Machine Compatibility

For volume cutting, Ellison offers two multipurpose die-cutting machines: the **SuperStar Excel** and **Prestige Pro**. The versatile Excel works with Ellison dies, Sizzix Bigz dies and AllStar dies. The Prestige Pro also works with Ellison dies, AllStar dies and most Bigz dies when used with the Prestige Adapter Pad. The **AllStar SuperStar Machine** is a more portable and cost-efficient model, compatible with any AllStar die and most Sizzix dies.

* Limit usage; can dull blade after too many cuts

SureCut™ die in a Prestige® Pro:

Select a SureCut die and material you want to cut.

Place your material and die (rubber side down) onto Cutting Pad and slide into machine. Lower handle to cut.

For Press Machines, all dies are foam side down.

Remove die and material from machine for perfectly cut letters, numbers and shapes.

AllStar®/Bigz™ die in a Prestige Pro:

Select an AllStar or Bigz die and material you want to cut. Place material, die (rubber side down) and Prestige Adapter Pad onto the Cutting Pad.

Slide Cutting Pad through so that die is directly under pressure plate. Lower handle to cut.

Remove die from machine and your perfectly cut shapes are ready to use!

For longer dies (shown above) multiple cuts will need to be made.

What is a SureCut Die?

Made from genuine birch, each SureCut Die features the finest quality, laser-accurate, steel rule, which is precisely placed in each die block to ensure cutting precision. The rule in the die does the cutting. The rubber around the rule helps to eject the material that has been cut. This results in a perfect die-cut every time.

What Size Fits You?

If you have a question about SureCut die sizes, you've come to the right place. Here you can easily reference the right die sizes for your Ellison® machine and ensure 100% compatibility between the machine and dies you purchase.

Design vs. Block

Five types of die blocks are used for the shapes shown in this section, with noted differences between die designs and block sizes.

TY - Tiny

Design: Approx. 1" - 1 1/2"
Block: 4 7/8" x 5 7/8"

SM - Small

Design: Approx. 3"
Block: 4 7/8" x 5 7/8"

LG - Large

Design: Approx. 5"
Block: 4 7/8" x 5 7/8"

DC - Double Cut

Design: Size Varies
Block: 4 7/8" x 11 3/4"

XL - Extra Large

Design: Approx. 8" - 10"
Block: 9 3/4" x 11 3/4"

Choose the Sure Thing

Whether it's the ABC's or 1-2-3's, SureCut Alphabet and Number dies create fast and easy shapes that foster the discovery of spelling, vocabulary, mathematics and much more. They're available in a variety of styles and sizes to emphasize your many lessons, while meeting important standards and reinforcing your curriculum.

What is an AllStar/Bigz Die?

Displaying the classic Ellison® design artistry, AllStar/Bigz dies feature award-winning designs on high-quality wood with steel-rule surrounded by foam and encased in durable plastic for easy cutting precision. This unquestionable quality is why educators continue to choose Ellison for their die-cutting needs.

What Size Fits You?

If you have a question about AllStar/Bigz die sizes, you've come to the right place. Here, you can easily reference the right die sizes for your Ellison machine and ensure 100% compatibility between the machine and dies you purchase.

For machine and die compatibility, visit [page 3](#).

All of these machines are compatible with AllStar and Bigz Die Cuts.

AllStar®/Bigz™ Alphabet Size Guide

Alphabet and Number Dies

3 1/2" Alphabet (1-Up)

1 1/2" Alphabet (4-Up)

Our 3 1/2" Alphabets have one character per die, while the 1 1/2" Alphabets feature four characters on a die. When choosing an AllStar Alphabet, consider the scope of your project and the sizing that complements it.

Remember, when selecting Capital & Lowercase Alphabet Sets and Number Sets, choose the same size, as they are proportional.

Xyron in the Classroom

Xyron makes laminating and applying adhesive super easy and fun. Plus Xyron is safe for use in the classroom. With Xyron you have many options to choose from; laminate with no heat or electricity, apply adhesive to make a sticker out of anything, or both laminate one side and apply adhesive to the other.

Whether in the classroom, library or resource room, Xyron provides an environmentally friendly alternative to heat lamination and spray adhesive. Xyron's cold lamination system does not use heat, emit odor or need electricity, resulting in a faster, cleaner, and safer end-result. Similar to the laminate our edge-to-edge adhesive applications are free from, smelly and sometimes harmful fumes.
