

**REQUIREMENTS:**

- Machine with 10" or wider opening

## Box, Door Hanger

**Figure A**

**Figure B**

**Figure C**

1. Die-cut XL Door Hanger Box from cardstock or other paper.
2. Decorate the Box while it is still flat (Figure A).
3. Fold on all perforated or crease lines.
4. Use double-sided tape or glue to seal the Box closed on the side with the tab (Figure B).
5. Pinch the sides so the box will open slightly. Fold the Box bottom on the fold line. Push the half with the finger hole in first. Then fold the last flap over (Figure C).

### 17411 Box, Door Hanger (XL)

- Die available with perforation or crease rule. • Crease rule dies require Premium Cutting Pad.
