

REQUIREMENTS:

- Machine with 10" or wider opening

Card, Slider (2 Die Design)

1. Die-cut the Slider Card Set from cardstock or other paper (Figure A). The Card die is extra long and requires three cuts in the machine (die is aligned with the back edge of the machine, centered in the machine and aligned with the front edge of the machine).
2. Slip the Slider Insert flap into the slit in the bottom panel of the Slider Card (Figure B).
3. Fold bottom panel up and tape at top of panel (Figure C).
4. Fold the top panel down (Figure D).

16837 Card, Slider (2 Die Design) (XL Long)

- Die available with perforation or crease rule. • Crease rule dies require Premium Cutting Pad.
