

## Flashcard Wheels (2 Die Set)

1. Die-cut Flashcard Wheels from cardstock or other paper.
2. Place the Bottom Wheel behind the Top Wheel to see where to write the questions and answers.
3. On the Bottom Wheel, write the question in the outside opening and write the answer in the hole opening directly across. Use the perforations to line up the Top and Bottom Wheel in each of the ten sections.
4. Label the Top Wheel with the appropriate skill, such as state capitals, multiplication, division, etc.
5. Attach the two Wheels together with a brad through the center hole and practice, practice, practice!
